COTS and Custom ITS Model Configurations

Integrated Tower Systems-ITS is a global leader in the manufacture, sales and rental of an extensive and affordable line of rapid-deployment Portable Tower & Mast Systems; Tower & Mast Integrated Trailers, Trucks, Communication-Site-on-Wheels (COWs), and Mast, Satellite- and Tower-Integrated Mobile Command and Communication Centers. This state-of-the-art equipment is designed specifically to support a global contingent of ITS clientele representing the following industries:

- Telecommunications, Infrastructure Development/Restoration; Tower Owners/Operators Multi-media, Broadcasting
- First Responder, Public Safety and Emergency Management; Law Enforcement, Incident Command, Search & Rescue
- Homeland Defense/National Security, Domestic and Foreign Military Initiatives; Tactical and Support Functions
- Immigration and Customs Enforcement, Border Security; Disaster Preparedness/Emergency Response
- Geophysical, Oil & Gas and Alternative Energy; Meteorological, Frequency and Weapon Systems Testing
- Transportation, Aviation, Aerospace and Construction; Entertainment, Logistics, Engineering, Municipal and Corporate Programs
- Global Support of Special Events; Political, Commercial, Industrial, Sporting, Civic and Numerous other Markets/Industries Served

In an ongoing effort to support National Security, Public Safety, Emergency Response and Military Initiatives world-wide, ITS' affordable and innovative rapid response systems are manufactured to both civilian and military specifications and built to withstand many of the world’s most demanding environments. Whether designed for the seamless installation of common or client-specific technologies, or pre-integrated with an ITS or client-furnished Communications or Surveillance Solution, ITS’ rapidly deployed equipment are proven key components in establishing the flow of vital information from remote and urban areas of need.

As an OEM and owner of North America’s largest sales inventory and rental fleet, ITS is pleased to present a few of our most popular Commercial-off-the Shelf (COTS) and Custom Model Configurations. For additional information, please visit our website at www.itstowers.com or contact an ITS Representative Toll Free at 1 (800) 850-8535.

- **Trailer GVWR & Dims:** 15,000 lb Capacity GVWR; to 4,500 lbs of Trailer Payload; +30’L x 8’W x 10’6”H
- **Tower Capacity:** Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations
- **Common Use:** Surveillance, Site Security, Remote Communications, Meteorological Testing, Lighting, Disaster Recovery, Temporary Cell Site (Site Development and Restoration), Site Surveys, Oil & Gas Exploration/Production Sites

- **GVWR & Dims:** 19,500 lb to 33,000 lb Capacity GVWR; +3,000-6,000 lbs of Truck-bed Equipment Payload; +30’-36’L x 8’W x 10’6”-12’6”H
- **Tower Capacity:** Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations
- **Common Use:** Sensor Applications, Communications & Surveillance, Disaster Recovery, Emergency Response, Remote Communications

Equipment: **ITS NC/SR Series** ~ Comm-Site-on-Wheels ~ (COW) ~ Self-Support & Guyed Heights: +55’, 72’, 89’ & 106’; Custom +120’ & +125’
- **GVWR & Shelters:** 20,000 to 36,000 lb Capacity GVWR; from 5,000 to 9,000 lbs of Payload; Typical Shelter Sizes: 8’ – 16’L x 8’W x 8’H
- **Tower Capacity:** Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations
- **Common Use:** Temporary Cell Site, Surveillance, Incident Command, Emergency Response, Site Security, Systems Testing

REPRESENTATIVE PRODUCT CATALOG
COTS and Custom ITS Model Configurations

» Equipment: **ITS IT & IT-G Series** ~ Portable Tower Trailer ~ Self-Support & Guyed Heights: +38', 55', 72', 89' & 106'
  » GVWR & Dims: 18,000 lb Capacity GVWR; to 6,000 lbs of Trailer Payload; +31'-33'L x 8'W x 11'6"H
  » Tower Capacity: Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations
  » Common Use: Temporary Cell Site - Development & Restoration, Surveillance, Testing, Lighting, AM Radio, Site Security

> Equipment: **ITS SRS Series** ~ Portable Tower Trailer (C-130 Aircraft Transportable) ~ Self-Support & Guyed Heights: +38', 55', 72', 89' & 106'
  » GVWR & Dims: 15,000 lb Capacity GVWR; to 4,500 lbs of Trailer Payload; +30'L x 8'W x 8'3"H
  » Tower Capacity: Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations
  » Common Use: Sensor Applications, Communications & Surveillance, Site/Border Security, Disaster Recovery and Remote Communications

» Equipment: **ITS SC Series** ~ Comm-Site-on-Wheels – (COW) ~ Self-Support & Guyed Heights: +55', 72', 89' & 106'; Custom +120' & +125'
  » GVWR & Shelters: 24,000 to 60,000 lb Capacity GVWR; 5,000 to 30,000 lbs of Payload; Typical Shelter Sizes: 8’ – 20’L x 8'-10"W x 9'6"H
  » Tower Capacity: Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations

» Equipment: **ITS SRS-C Series** ~ Tower Trailer (C-130 Transport) ~ Self-Support & Guyed Heights: +38', 55', 72', 89', 106'; Custom +120' & +125'
  » GVWR & Dims: 20,000-26,000 lb Capacity GVWR; to 7,500 lbs of Trailer Payload Capacity; +33'-38'L x 7'8"- 8'W x 8'4"H
  » Tower Capacity: Standard and Upgraded Payloads From +550lb/250kg to +750lb/340kg; 120-220VAC/60-50Hz Configurations
  » Common Use: Sensor Applications, Communications & Surveillance, Site/Border Security, Disaster Recovery and Remote Communications

> Equipment: **ITS CLT Series** ~ Comm-on-Light-Truck – (COLT) ~ Self-Support Height to +60'; Guyed to +100'; Single or Tandem Mast
  » GVWR & Shelters: 25,999-36,000 lb Capacity GVWR; to 15,000lbs of Payload; Shelter Sizes: 8'-20’L x 8'W x 9'6"H
  » Mast Capacity: Standard Payload to 200lbs; Upgraded Payloads to +450 lbs
  » Common Use: Telecommunications, Media Broadcasting, Disaster Recovery/Emergency Response – Mobile Command
REPRESENTATIVE PRODUCT CATALOG
COTS and Custom ITS Model Configurations

» Equipment: ITS MT Series ~ Trailer-Mounted Mast System ~ Self-Supporting and Guy Capable Pneumatic Mast Height to +80’ AGL
» Trailer GVWR & Dims: 7,000 lb Capacity GVWR; to 4,000lbs of Payload; Transport Dims: +18’L x 7’W x 7’3H; Deployed Dims: 18’L x 13’W
» Mast Capacity: Standard Payload to 200lbs; Upgraded Payloads to 400 lbs; Mast Access Ladder with OSHA-compliant Fall Arrestor

» Equipment: ITS COW Series ~ Trailer-Mounted Shelter & Mast System ~ Self-Support Pneumatic Mast Height to +60’
» GVWR & Dims: 15,000 – 20,000 lb Capacity GVWR; to 10,000lbs of Payload; From 22’L x 8’W x 12’6”H; Typical Shelter Sizes: 8’–12’L x 8’W x 8’H
» Mast Capacity: Standard to 200lbs; Upgraded Payloads to 400 lbs

» Equipment: ITS RD-S Series ~ Trailer-Mounted Mast System ~ Self-Supporting and Guy Capable Pneumatic Mast Height to +60’ AGL
» Trailer GVWR & Dims: 6,000 lb Capacity GVWR; to 1,800lbs of Payload; Transport Dims: +13’3”L x 7’1”W x 7’8H; Deployed Dims: 13’3”L x 14’W
» Mast Capacity: Standard Payload to 200lbs; Mast Access Ladder with OSHA-compliant Fall Arrestor
» Common Use: Border Security, Surveillance, Disaster Recovery/Emergency Response, Site Surveys, Energy Production/Mining, Site Security

» Equipment: ITS RD-T Series ~ Trailer-Mounted Mast System ~ Self-Supporting and Guy Capable Pneumatic Mast Height to +80’ AGL
» Trailer GVWR & Dims: 12,000 lb Capacity GVWR; to 6,000lbs of Payload; Transport Dims: +16’0”L x 7’1”W x 7’8H; Deployed Dims: 16’0”L x 14’W
» Mast Capacity: Standard Payload to 450lbs; Mast Access Ladder with OSHA-compliant Fall Arrestor
» Common Use: Border Security, Surveillance, Disaster Recovery/Emergency Response, Site Surveys, Energy Production/Mining, Site Security
ITS Rental and Flexi-Fleet Configurations – Portable Tower Systems

ITS Rental Programs offer a wide variety of innovative, efficient and flexible options to meet customer’s temporary, long-term, and emergency communications needs. Whether originating from ITS manufacturing headquarters or a Domestic or International Fleet Depot, we offer customers both in-house and field services including: training, equipment integration, deployment and decommissioning coordination, customs and transportation logistics, and other necessary services to assist with temporary use requirements.

As designed, each trailer’s skeletal frame is engineered with a minimum factor of safety of 2:1, with 4:1 in critical load areas. A multi-section ~ 21’0”/6.4m each, lattice steel telescopic structure is designed to transport horizontally over the trailer’s equipment platform and automatically tilt by means of a heavy-duty, chrome plated hydraulic cylinder. The tower system is raised to its full extension utilizing a direct drive, minimum 1HP, totally enclosed fan cooled (TEFC), wash-down rated electric winch motor and gearbox assembly. Each Portable Tower System model is capable of being deployed, elevated to its full-extended height, and secured by a mechanical tower lock mechanism by one person in under 30 minutes. For added security and stability during poor weather conditions, excessive loading, long-term deployment, or to minimize structure deflection for critical applications, the tower may be further protected by the use of an included guy cable and ground anchor system.

ITS Portable and Fixed-Foundation Telescopic Tower Systems

ITS self-supporting and guy capable telescopic steel structures are fully automatic, have extended heights ranging from ±38’0”/12m to ±130’0”/40m above ground level (AGL), standard payloads from 550lbs/250kgs to ±750lbs/340kgs, and offer the greatest self-supporting and guyed wind load capacity of any comparable tower system. ITS telescopic structures may be utilized solely in the self-supporting configuration to their maximum extended elevation ~ no guy wires required except in cases of excessive loads, extreme wind velocity, or to minimize deflection for critical applications.

ITS towers may be custom manufactured for installation directly to a concrete foundation or integrated atop numerous ITS trailer, truck, skid or similar platforms. A rigorous Finite Element Analysis Program, performed and certified by an industry recognized, unaffiliated Structural Engineering and Consulting Firm, may be utilized to perform stress analysis review to determine tower member design in conformance with ANSI/TIA-EIA 222-G, CSA-S37 and other industry accepted power supply operates external panel. Illuminated (LED) low volt warning and tower functions lamps (tilt and telescope) as well as a key lock power engagement devise are several of the safety features incorporated into each tower’s central control system.

ITS models include both commercial and military configurations; many of which are capable of withstanding harsh environmental conditions and transport challenges inherent to both urban and remote regions of the world. Transport capabilities include C-130 or larger fixed wing aircraft, flatbed trailer, 2 or 4-wheel truck, rail, sea and over-the-road tractor. ITS towers designed for fixed foundation installations or mobile applications may be shipped complete or modularly allowing for containerized transport and easy in-country re-assembly.
